

2020 Archery Catalog

7361 N 7 Mile Rd, Lake City, MI, United States 49651 • 231.229.4247 • www.bohning.com

To the customers of The Bohning Company,

We wish to thank all of you for your trust and loyalty.

Bohning has engineered, manufactured, and shipped its products from the same location east of Lake City, Michigan since 1946. The company was started by Rollin Bohning, who was a chemist and archer. He developed many adhesive products while working with Doug Easton and Fred Bear throughout the 1940's, 50's and 60's. His daughter Martha and son-in-law Colby Johnson took over the operations in the 1970's and the product line continued to expand. Since the late 1980's we have developed and launched many new innovative products. Our seasoned and experienced associates have expanded the Bohning line to include vanes, nocks, fletching jigs and many other accessories.

The Bohning Team lives, works and serves the Archer from one of the most beautiful places on this earth. The company tradition and guiding principles have not changed – "We build to the highest quality standards, products that our customers demand and use to fulfill life long dreams on the range or in the field."

As we like to say here at Bohning... "It's in our Vanes"

- **Larry Griffith**
President/CEO

Photo by Kirk Clark

The Blazer® is the vane that has dropped more jaws, hung more trophies, convinced more skeptics, and provided more big silly grins than all the "knock-off," "wanna-be," and "copy-cat" vanes combined! This is the vane that, hands down, out-performs them all!
