LURE-LAC PAINT

FRESH WATER AND SALT WATER APPLICATIONS!

Lure-Lac paint is a fast drying lacquer with high impact, flexible polymers that bond to a variety of surfaces including lead and lead-free jigs, plastic lure bodies, metal lures and spoons, wood lure bodies and cork.

Lure-Lac has been formulated for salt water use, and has been shown to be resistant to salt water exposure equal to 24 hours a day for an entire year.

Lure-Lac is easily applied with either an air brush or dipping by thinning with Lure-Lac Retarder thinner. Dry to the touch in about 10 minutes!
